Dear Julian:

I wanted to tell you a little more about your 11 shilling Massachusetts bill. It is an error note. Revere meant to put 1778 as the due date but put in 1777 on all notes on the plate. Some notes were printed with the error and the final number 7 was written over with an 8 in ink. Will you check your note to see if the change is in ink. I wrote about this in my book but have never seen a correction of the 11 shilling before. He changed the due date on all notes on the plate to 1778 and then to 1779 later. So now you have a rarity with a rare error. I feel that both notes are genuine but can never be quite sure.

My best Eric
